The Colonist

VICTORIA, B. C.

The Daily is the PRINCIPAL NEWSPAPER of British Columbia. It prints a greater variety of city, provincial and foreign news, and has a larger circulation than any other paper in the Province. It is therefore the best medium for advertisers. - - - - -

The Weekly is a 16-page 6-column paper, containing all the local and foreign news of the day, and is an excellent general advertising medium for the Province. Subscription price, postage prepaid to any part of Canada or the United States, \$2.00 per annum, in advance.

Lithographing, Engraving, Embossing, Book, Job
and Label Printing, in the best style of
the Art. Estimates given.

LANGLEY & CO'S
Fluid Extract of Sarsaparilla & Yellow Dock
WITH IODIDE OF POTASS.

This agreeable Tonic and Alterative, carefully prepared from selected Roots, has firmly established its reputation during the past thirty years for efficiency in

CHRONIC RHEUMATISM, for removing the injurious results arising from the imprudent use of MERCURY, for SCROFULOUS AFFECTIONS, BLOTCHES, PIMPLES, and other Cutaneous Diseases.

As a reliable BLOOD PURIFIER or SPRING MEDICINE, it is unexcelled.

LANGLEY'S
EMULSION OF COD LIVER OIL
WITH HYPOPHOSPHITES OF LIME AND SODA.

This Medicine is made with the best Cod Liver Oil and is quite palatable.

It has for some time met with the approval of the Medical Profession, having been used with marked success in all stages of Consumption, Scrofula, General Debility, and in wasting diseases incident to children.

It is equally efficacious for common Colds, Coughs, Pulmonary Diseases, etc., etc.

LANGLEY'S
MILD APERIENT,
—OR—
ANTI-BILIOUS PILLS,
—FOR—
DISORDERS OF THE STOMACH & BOWELS,
GIDDINESS, SICK HEADACHE, &C.

THESE PILLS are strongly recommended as one of the best Medicines for Bilious Complaints, Disorders of the Stomach and Bowels, Giddiness and Sick Headache, occasioned by Indigestion, free living, etc., and are so perfectly innocent in the composition (although truly effectual) that they may be taken by Children and Females of the most delicate constitution; they have also been found exceedingly serviceable in expelling most description of worms, etc.

The peculiar efficiency of these Pills lies in promoting a due secretion of Bile—a redundancy of which most frequently produces Heartburn, Giddiness, Nausea, Headache, loss of appetite and rejection of food; they will be found highly beneficial in all Dyspeptic affections, Spasms of the Stomach and Bowels, by which the functions of the Viscera become impeded.

The qualities of these Pills are neither impaired by time or diminished by climate; they require no confinement or alteration in diet; and their operation, assisted by moderate exercise, will promote a healthy action of the Liver and remove those obstructions which generally produce the above complaints.

The salutary effects produced in all cases for which they are recommended, render them worthy of the notice of travellers in particular, and to persons who experience unpleasant sensations in the morning after immoderate indulgence in the luxuries of the table.

DIRECTIONS.

The usual dose for a grown person is two or three Pills; but as constitutions vary, some will find one sufficient, which should be taken at bed time. To those who are troubled with habitual costiveness, it will be requisite to take one or two at bed time every night, for a short time, and then every second or third night, so as to leave them off by degrees.

LANGLEY'S BALSAM OF ANISEED !

**Expectorant, Anti-Spasmodic, Diaphoretic,
and, in large doses, Emetic.**

**This preparation may be confidently relied upon
for giving relief to Colds, Coughs, Croup,
Influenza, Hoarseness, Asthma, and
Disorders of the Throat, Lungs,
and Bronchial Tubes.**

TESTIMONIALS.

Messrs. LANGLEY & CO.

Victoria, B. C., April 23rd, 1891.

Dear Sirs—Having been troubled with a cough and cold for the past three months, and having tried numerous kinds of cough mixtures without any beneficial effect, I was induced to try your Balsam of Aniseed. I was almost immediately relieved and am now entirely cured.

Dear Sirs—My little girl has been troubled with a severe cold, coughed all night, and to all appearances was in the first stages of consumption. After trying several remedies without any benefit, I was recommended your Balsam of Aniseed, which has completely cured her.

Messrs. LANGLEY & CO.

Dear Sirs—Having been recommended by a friend to try Langley's Balsam of Aniseed, I wish to tell you how much good it has done my three children, who had very bad coughs. Two bottles completely cured them, and I cannot speak too highly of its value. Every mother should try it for her little ones.

Dear Sirs—I was attacked with a very severe Cough and Cold in 1889, and tried everything I could hear of; nothing helped me until I was recommended to try your Balsam of Aniseed. I consider it the best cure for Bronchitis, Coughs and Colds, and especially for Whooping Cough. I always take a supply with me when I go to Hampton, Virginia.

AWARDED TO

MELLIN'S FOOD !

California Midwinter Exposition,

1894.

San Francisco, June 28th, 1894.

To the Doliber-Goodale Co.,

Boston, Mass.

Dear Sirs:—Mellin's Food has given entire satisfaction in the Creche at the California Midwinter International Exposition, and it gives me great pleasure to so advise you.

I have made use of no other infant food, but have used Mellin's Food exclusively for feeding the infants and children left in the Creche, during the whole term of the Fair.

Yours truly,

(Miss) Columbia J. von Schmidt,

Matron of the Creche at the California Midwinter International Exposition.

Rates of postage, limits of weight, etc., can be obtained at the Post Office. A Customs Declaration of the contents and value of each parcel must be filled up at the Post Office by the sender. These parcels are forwarded by Canadian contract steamers only.

Parcels for Newfoundland must be prepaid 15 cents per lb. or fraction of a lb. Limit 7 pounds.

Parcels for Japan via Vancouver, 25 cents per lb. Limit 7 lbs.

5th CLASS MATTER.—Comprises such matter of general merchandise as are not entitled to any lower rate of postage. Postage 1 cent per oz. or fraction of an oz. Limit of weight 5 lbs.; of size, two feet in length by one foot in width or depth. Matter claiming to be 5th class must be open to inspection, and there must be no correspondence enclosed. Packages of 5th Class Matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to Customs inspection and collection of duty in the United States. Sealed Tins containing Fish, Lobsters, Vegetables, Meats, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents, may be sent as 5th Class Matter within the Dominion, but no sealed matter can be forwarded to the United States under this head. Liquids, Oils, and Fatty substances may be sent to places in Canada and the United States as 5th Class if put up in accordance with the ruling referring to such articles in the Canada Postal Guide for 1891, page xvi.

Registration.—All classes of matter addressed to places in Canada, the United States, Newfoundland, Great Britain or any Postal Union Country may be registered for a fee of 5 cents for each article in addition to the Postage, and letters may be registered to most of the countries not included in the Union.

Every article intended for registration must be handed in at the wicket, and a receipt obtained therefor. On no account must it be dropped into a letter box. The registration fee should be paid by registration stamp.

The sender of a registered article addressed to any Postal Union Country may entitle himself to a certificate as to the disposal of said article by the Postmaster at the office addressed, on payment of an additional fee of 5 cents.

ABSTRACT OF LAND REGULATIONS.

N. B.—No land is sold by the Government, except by public auction, on rare occasions, when its adaptability to some special purpose subjects it to competition. It is thus secured as much as possible to the uses of the bona-fide settler.

PRE-EMPTION.

Any person, the head of a family, a widow, or single man over the age of eighteen years, being a British subject, or any alien, upon his making a declaration of his intention to become a British subject, before a Notary Public, or other officer appointed therefor, and upon filing the same with the Commissioner, may record any tract of unoccupied and unreserved Crown lands (not being an Indian settlement) not exceeding one hundred and sixty acres in extent.

Any person desiring to pre-empt, if the land be unsurveyed, shall first place at each angle or corner of the land to be applied for a stake or post at least four inches square, standing not less than four feet above the surface of the ground; any stump of a tree may be used for a post, provided it be squared, and of the required height and dimensions, and upon each post a notice in the following form shall be affixed:—

"A. B.'s land, N. E. post," (meaning north-east post); "A. B.'s land, N. W. post," (meaning north-west post); and so on, as the case may be.

Any person desiring to pre-empt surveyed land must make application in writing to the Commissioner of the District in which the land is situate and enclose it with a sketch plan of the land and a declaration made before a notary public or other officer. Declaration, plan and sketch must be sent in duplicate.

Upon the compliance by the applicant with the provisions hereinbefore contained, and upon payment by him of the sum of two dollars to the Commissioner, the Commissioner shall record such land in his favor as a pre-emption claim, and give him a certificate.

The pre-emptor must occupy the land within thirty days after the date of certificate of record and he or his family must reside continuously on the land, with leave of absence for two months in each year. Further leave may be obtained for good cause from the Commissioner.

No person is entitled to hold at the same time two claims by pre-emption.

Upon the pre-emptor on surveyed land proving to the Commissioner that he has been in occupation of his claim from the date of record and has made permanent improvements to the value of two dollars and fifty cents per acre, he shall receive a certificate of improvement.

Every person pre-empting surveyed or unsurveyed land shall pay one dollar per acre for the same, to the Commissioner, in four equal annual instalments of twenty-five cents each per acre. The first instalment shall be due two years from the date of the record of the land pre-empted, and each subsequent instalment yearly thereafter: Provided, however, that the last instalment shall not be payable until the land so pre-empted, if unsurveyed, shall have been surveyed.

After the grant of a certificate of improvement, and payment of one dollar per acre for the land, a Crown grant or conveyance of the fee-simple of the land shall be executed in favor of the pre-emptor, upon payment of the sum of five dollars; but such Crown grant shall be issued only to British subjects by birth or naturalization.

No transfer of any pre-emption is valid until after the Crown grant issues.

LEASES.

Leases of lots not exceeding twenty acres in extent may be granted by the Government, for terms of five years at an annual rental equal to one-fifth the value of the land. At the expiration of the five years a Crown grant will be issued to the lessee, provided he has complied with the conditions of his lease.

TIMBER LICENSES.

Special timber licenses for not more than one thousand acres are granted on payment of \$50 per acre.

Licenses are also granted on payment of fifty cents per thousand feet.

MINING REGULATIONS.

Each free miner must take out a license at a fee of \$5.

Every placer claim shall be as nearly as possible rectangular in form, and marked by four posts at the corners, firmly fixed in the ground. One of such posts shall be marked as the "initial post," and on that post shall be placed a legible notice in writing, stating the name of the claim, its length in feet and general direction, with the date of the notice and name of each locator. If any side line of any claim shall exceed 100 feet in length, legal posts shall be placed along such side line, at distances not exceeding 100 feet.

The general size of a placer claim is 100 feet long by the same width.

If any free miner, or party of free miners, discover a new mine, and such discovery be established to the satisfaction of the Gold Commissioner, placer claims of the following sizes, in dry, bar, bench, creek or hill diggings shall be allowed, viz:—To one discoverer, one claim 300 feet in length; To a party of two discoverers, two claims 600 feet in length; to a party of three discoverers, three claims, amounting together to 800 feet in length; to a party of four discoverers, four claims, amounting together to 1,000 feet in length; and to each member of a party beyond four in number, a claim of the ordinary size only.

Every placer claim must be recorded with the Mining Recorder of the district; the fee is \$2.50 for each year.

A placer claim is deemed abandoned if unworked for seventy-two hours unless from some reasonable cause. Leave of absence may be secured, however, from the Gold Commissioner.

Water rights for placer claims may be secured from the Commissioner on certain terms.

Leases of placer mining ground may be obtained for periods not greater than ten years, except for bench lands which adjoin unworked rivers, for hydraulic workings, when the term may be twenty years.

A mineral claim is 1,500 feet in length by the same distance wide as nearly as possible. It is marked by two posts placed as nearly as possible on the line of the vein and not more than 1,500 feet apart. A third post must be placed where rock has been discovered in place. The line must be defined by blazing trees or setting up posts. Name and date of record must be placed on the initial post.

The holder of a mineral claim shall be entitled to all minerals which may lie within his claim, but he shall not be entitled to mine outside the boundary lines of his claim continued vertically downwards.

Record must be made of a mineral claim with the Mining Recorder within fifteen days after location, if within ten miles of the office, or one day additional will be allowed for every additional ten miles distance. Only one mineral claim may be held on the same vein.

A Crown grant shall be issued to the holder of a mineral claim on payment of \$500 in lieu of expenditure on same; or upon the record of a certificate of improvement to the value of \$500.
